Sohan, hi. We want to have you redesign our website but wonder how we communicate during the process and make whatever changes are needed once you have the design complete and ready for review. I know Fiverr wants all communication to go through their system. How do we make all this work? Once we confirm everything, we will send you our Wordpress login. Also, so you know, we currently work with BoomTown on our website. Have you done any redesign work with websites they have created? We look forward to hearing from you. Thanks. Don

I will integrate your BoomTown on your website (I need the login of it) and we can connect and collaborate on all the details and information, and live updates in Fiverr here in Chatbox if we need to join a meeting to discuss we can connect here.

No worries! about these collaborations.

Also, if everything is okay for you may I send you the custom offer to get started?

Sohan, hi. Before accepting this, I want to be sure you understand that 1. We currently work with BoomTown. They manage our website and we are wanting to redesign what they have, and 2. This is not a "fix" to what we have, but a redesign, using current content and replicating current functionality. What does "integrate booking feature" mean?

Me Sep 23, 2024, 9:29 PM

I will redesign your website as we discussed, using current content and replicating all the features, please share with me the login and

Also, as I can see <https://boomtownroi.com/> BoomTown, an inside software and solutions Real Estate company, help top agents and brokerages generate leads, manage their marketing, close more deals, and run a better business.

Is that correct?

advantagereaa676 Sep 23, 2024, 10:03 PM

Ok. Here is the login information for BoomTown: Our address for the site starts with Admin and then at advantage realty sumer with the ending com. I can't write it all together as Fiverr does not allow. Password is Arg2573#. Let me know when you are able to access. Thanks. Don

I see your billing request and note that it calls for the entire invoice to be paid in advance. Can we do this in two installments, one now and one when job is complete?

Me Sep 23, 2024, 10:12 PM

Replied

I see your billing request and note that it calls for the entire invoice to be paid ...

Not actually, To get started, once I send you an offer, you can accept the offer from your end, and the order will start on Fiverr.

To start, Fiverr will charge you upfront for all the amounts, and they will hold them for both of us.

Then we will work on the project, send you a work update, work on your revisions and feedback (if you have any) and then we will submit the final project to you.

And finally, you can release the amount to me after checking all of my work.

This is how Fiverr works.

If everything looks great you can accept the offer to get started

advantagereaa676 Sep 23, 2024, 10:53 PM

Ok, I can't find the invoice information now, please resend. Thank you.
