Hi There,
Im looking to create a new mobile app

This message relates to:

Me 29 Mar, 13:52
Hello Mitchell,

I truly appreciate you considering me for your app development project.

Yes, I can perfectly build both iOS and Android apps.

To ensure I capture all your requirements, could you provide more details on the features and functionality you'd like?

Moreover, we can join a Fiverr Zoom call to discuss your ideas more thoroughly.

I'm excited to learn more about your project and how I can assist in bringing your vision to life.

Looking forward to hearing from you.

Best regards,
Rakibul.

Hi we are looking to incorporate an app as we are luxury home builders. Where our after selecting the builder they wish to work with. The builder subscribes to the app and enroles their clients and the required items to be selected. Clients can go room by room, bathroom, kitchen etc selecting finishes, textures, colours and patterns in each room to be then sent to the builder and signed off on from both parties acknowledging the changes or finishes so these can be price or amended during construction. Then Variation for material changes also can be uploaded and accepted by the clients

Me 29 Mar, 14:41
Thank you for sharing the details of your project.

I understand your concept that you're looking to build a luxury home builders app where builders and clients can collaborate on selecting finishes, textures, colors, and materials, and manage variations and approvals during the construction process.

This sounds like a fantastic idea, and I would love to help you bring it to life.

Could you share more details about any specific features or design preferences you have in mind for the app?

Additionally, we can schedule a short meeting to discuss everything in more detail.

Looking forward to working together.

M mitchellpartrid 29 Mar, 14:54
Some features we would like to bring in are suppliers or products to be able to buy in and supply their catalogues and pricing for the clients to select through basically setting up their own virtual shop for the clients to select from to understand pricing and costs applicable to their build. Also allowing for website referrals so able to transfer a web link in to the app. The clients can submit their project to the supplier to price the materials to the builder or help incorporate their items within the build. Also looking for an acknowledgement page of selections. Possibly as well incorporating Ai capabilities so the client can upload the space in to the app and overlay with a product to help them invisage what it will look like on their build

Me 29 Mar, 15:06
Okay, great.

Let me know yes, there any other thing you need to add on your project.

M mitchellpartrid 29 Mar, 15:16
I dont think so just yet

Me 29 Mar, 15:18
Okay, no worries.

Please allow me a while to make a detailed quotation for you.

I will get back to you soon.

Thank you for your patience.

Hello Mitchell,

30 Mar, 7:51

I hope you're having a great day.

Just wanted to check in and see if you had the chance to review the quotation I provided.

If there's anything you'd like to go over or if you have any questions, feel free to reach out.

I look forward to your feedback and any next steps.

Best regards,
Rakibul.

M mitchellpartrid

Thank you reading through in depth it all looks great. Are we able to incorporate a website for computer access to the individual accounts

31 Mar, 14:33

Me

Hello Mitchell,

31 Mar, 14:51

Thank you for reviewing the quotation!

I'm glad to hear everything looks great.

Yes, we can absolutely incorporate a website version for computer access.

We can build the web app to be fully responsive, ensuring it's mobile-friendly as well as optimized for desktop use.

This way, both the desktop and mobile users can access individual accounts seamlessly.

Let me know if you'd like to proceed with this addition, and feel free to share any more thoughts or requests!

Best regards,
Rakibul

M mitchellpartrid

Hi Rakibul, could you please inform me that your company is suitable for this project?

04 Apr, 12:33

Me

I am 100% confident that we can successfully deliver this project.

Please take a moment to review the quotation, and let me know if there's anything you would like to add, remove, or adjust.

Any feedback or adjustments from your side will be highly appreciated, as it will help us tailor the solution exactly to your needs.

I'm looking forward to hearing from you and moving forward with your project.

Me

Let me know if you are ready to start the project.

Or if you want to join a quick meeting to discuss everything again in detail.

Looking forward to working together.

04 Apr, 12:43

M mitchellpartrid

I guess then if we can also have an integrated area where our subcontractors can also be in with the app and have access to all the finishes schedules and decisions the clients have made in their selections

04 Apr, 12:47

Me

Yes, we can definitely incorporate this feature.

We will create a separate role for subcontractors, giving them access to all the finish schedules and client selections.

This way, they can stay fully updated and collaborate seamlessly within the app.

M mitchellpartrid

Sounds great lets start stage 1

Hello,

Hope you're doing well!

Our team has start researching your project and will be moving into the design phase soon. Before we proceed, we'd like to schedule a quick meeting to walk you through our working process .

Could you please share a time that works for you? We're available between 10:00 AM – 10:00 PM (GMT+6).

Looking forward to connecting!

05 Apr, 9:55

Me

Hello,

We understand that you may be busy. Please let us know when you are available.

In the meantime, based on your feature list, we have started working on the Figma design.

We also need your logo—if you already have one, kindly share it with us so we can choose the color palette accordingly.

Thank you!

06 Apr, 8:44

MitchellPartrid

Hi Sprry we dont have a logo yet ill get one sorted. Can we have a discussion on the 7/4 at 10am australian eastern standard time

06 Apr, 8:50

Me

Thank you so much for your response.

Actually, this is not possible at this time, my developer is not able to work at this time.

If you can join the meeting from 9 am to 4 pm Bangladesh time.

06 Apr, 9:12

Me

We are currently using a demo logo in the app.

Once we receive your logo, we will replace it and finalize the logo and color scheme.

Regarding the meeting on April 7th — 10:00 AM EST, it is quite early for us.

Our office hours start at 9:00 AM, and our team is generally available from 9:00 AM to 10:00 PM+ (GMT+6), so this works perfectly for us.

Please let us know if you are available within this timeframe.
