petrkis PROMOTED

25 Feb, 3:59

Hi I hope you are doing ok. I have a question? What are your requirements for developing a new app from scratch? Do you need things like blueprint etc.??

This message relates to:

I will build mobile app development android app ios app creation flutter app developer

Me

25 Feb, 4:06

Hello Petrakis,

Thanks for reaching out to me.

I can build a new app from scratch for you, just give me some details. Or if possible, maybe a reference application that works as an inspiration for this idea

Can you tell me what the application will be for?

Looking forward to your response.

Me

27 Feb, 3:23

Hello Petrakis,

I hope you're doing well.

I just wanted to follow up on my previous message regarding the app development.

If you could provide me with some more details about the project, that would be great.

Whether it's a reference app, specific features, or any goals you have in mind, I'd love to help bring your vision to life.

Also, to give you some more ideas from my experience can we join a short meeting?

Looking forward to hearing from you!

Best regards,
Mahmud

petrkis

19 Mar, 16:53

Hi Abdulla

Thank you for your message. I can send over a blueprint and project details so you can review the app concept, features, and goals. Before we go further, I need to be clear on the terms under which I would be comfortable proceeding. Any engagement would need to include:

An NDA / confidentiality agreement covering the app concept, features, business plans, materials, code, and any non-public information shared during the project

Full IP assignment of all project deliverables to me

No reuse or resale of my code, specs, or confidential materials

Disclosure of any third-party or open-source code used

Source code stored in a repo I own or control

All accounts, credentials, and technical assets handed over to me

Full handover rights if the engagement ends

Confirmation that the work is original or properly licensed

A DPA if any personal data will be processed

If that is acceptable, I can send the blueprint and we can then arrange a short call to discuss the project in more detail.

Best regards,
Petr Kis

Me

19 Mar, 17:01

Hello Petrakis,

Thank you for your response.

I'm happy to proceed with signing the NDA. Please send it over, and I'll review it. Alternatively, if you prefer, we can join a meeting now to discuss the project in more detail. I'm available for a meeting at your convenience.

Looking forward to hearing from you!

Best regards,
Mahmud

petrkis

19 Mar, 17:07

Thank you for your reply.

That sounds good. I'll send the NDA over for your review first, and once that is signed, I'll share the project blueprint and further details so we can discuss the app properly.

After that, we can arrange a meeting to go through the project in more detail.

Looking forward to meeting about

I'm looking for your NDA.

Me

Hello Petrkis,

I hope you're doing well.

I just wanted to follow up on the NDA you mentioned.

I'm eager to review and sign it so we can move forward with discussing the project in more detail.

Please let me know if you need anything from my side to proceed, and I'm looking forward to receiving the document.

Best regards,
Mahmud

petrkis

Hi Abdulla Mahmud

I'm sending the agreement over now for your review.
There are just a few blank details on your side that I still need from you to complete the final version:

Your full legal name or business name
Your full address and country
Your email address for notices
Your Fiverr profile link and/or the Fiverr order reference

If signing through a company, your title/role and company registration number

Please review the agreement and send those details when convenient, and I'll update the final version.

Best regards,
Petr Kis

Hi Abdulla Mahmud I'm sending the agreement over now for your review. There are just a fe...

Okay, let me check it.

But one thing I can't share is my personal e-mail address or any personal details. Fiverr doesn't allow this. It's against Fiverr policy we have to respect Fiverr policy.

Other than that, everything is fine.

petrkis

Thank you, I understand and I respect Fiverr policy.
That's completely fine. You do not need to share any personal email address or personal details through Fiverr chat.
For now, please review the agreement on the basis that communication and notices can be handled through Fiverr messages and the Fiverr order page. I can update the final version using your Fiverr profile/business name and the Fiverr order reference instead of personal contact details.

If you're happy with the agreement overall, please let me know any comments or changes you would like me to make.

Best regards,
Petr Kis

Me

Perfect.

Let me review and sign the NDA.

Me

Here you can see I have signed the NDA.

Take a look, and now you can give me your full idea of the app. Like the features list and others.

↓ GoodNiva_... (221.39 kB)

petrkis

Hi Mahmud

As agreed, I'm now sending over the first project documents for your review through Fiverr.

The first set includes:

Blueprint PDF
Functional requirements
Wireframes
Technical architecture
Sprint/build plan

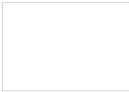

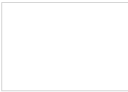

Please take a look and let me know your honest opinion on the idea, the overall scope, and the

proposed approach.
If there is anything you think should be added, improved, adjusted, or clarified, please feel free to let me know so we can discuss it further before moving ahead.

I'd also appreciate your view on whether the structure and milestone flow make sense from a development perspective.
Looking forward to your feedback.

Best regards,
Petr Kis

Allow me some time to review it.

I will get back to you.

Edited

**petrkis**

20 Mar, 17:38

Ok great

**Me**

20 Mar, 17:43

Thanks for your patience.

**Me**

20 Mar, 21:09

Thank you for sharing the detailed documents. We've carefully reviewed everything with our team, and I'm happy to confirm that this project is definitely feasible from our end.

While we haven't worked on an identical project, we have extensive experience with similar solutions. If you'd like, I can share relevant projects along with our approach to give you a clearer idea of how we would tackle this.

Regarding the project structure, I propose organising it into four milestones for optimal efficiency:

- UX/UI Design
- Front-end Development
- Back-end Development
- Deployment & Final Delivery

I noticed that you initially mentioned five milestones. However, based on our workflow and experience, we believe four well-structured phases will streamline execution and improve overall efficiency.

Additionally, once the project is completed, we will provide 6 months of free ongoing support to ensure everything continues running smoothly.

I'll now prepare a detailed quotation outlining the scope, timeline, and milestones, and share it with you shortly so we can move forward.

If there's anything you'd like to adjust or discuss further, please feel free to let me know.

Looking forward to hearing from you.

Best regards,
Mahmud

**petrkis**

20 Mar, 21:47

Hi Mahmud,
Thank you for your detailed message and for reviewing the documents with your team.
I'm glad to hear that the project is feasible from your end. I understand your point regarding the 4-milestone structure, and I'm happy to review the quotation once you send it over.

Please also feel free to share relevant past projects and your proposed approach, as that would be helpful for context and to better understand how you would tackle this project.
At the same time, I would just like to make sure that the final build remains aligned with the blueprint, the agreed MVP scope, and the handover requirements already discussed.

I would also appreciate it if the quotation could clearly set out:
what is included in each milestone
how progress will be reviewed during development
that source code will be committed to a repository I control throughout the project
what is included in the final delivery and handover stage
what the 6 months of support covers, for example bug fixes, minor adjustments, response times, and any exclusions.

Once I've reviewed the quotation, we can discuss any final adjustments and move forward.

Best regards,
Petr Kis

**Me**

20 Mar, 21:54

Yes. I'm preparing a quote for you.

**Me**

20 Mar, 22:03

Hello Petr Kis,

Thank you for considering me for your project development needs. Below is a brief summary of the project scope and payment terms:

Quotation Details:

<https://docs.google.com/document/d/1HFkGbk5XGLYSv9JIAQKzqEUmakhQO4zy2RFYhCXqbVE/edit?usp=sharing>

Payment Terms:
Milestone-Based Payments: Payments are made upon completion of each project phase-no full upfront payment required.

Flexible Structure: Ensures progress while providing flexibility.

Included Services:

- 180 Days Post-Launch Support: Full support for 180 days post-launch to address bugs or issues.

- 24/7 Availability: My team is always available to assist.

- Weekly Updates: Progress reports and regular check-in meetings to stay aligned.

- Quality Assurance: Thorough testing to ensure a smooth, bug-free app.

- App Store Deployment: Assistance with deploying the app to iOS and Android.

- Post-Launch Support: Continued updates and maintenance after launch.

I look forward to working together to create a fantastic app for your needs. Please reach out if you have any questions or need further details.

Best regards,
Mahmud

Me

20 Mar, 23:52

Hello Petr Kis,

Thank you for your patience. There seems to be an issue with the previous Figma link. I'm sharing an updated one below for your review:

<https://www.figma.com/design/4dE3kCZxJb906EcTbolys/One-Net-App?node-id=3-2&p=f&t=Wt7wqyDVKngrMX2-0>

This API should respond properly now. Please let me know if you encounter any further issues or if you need anything else.

Looking forward to your feedback.

Best regards,
Mahmud

Petr Kis

21 Mar, 16:41

Hi Mahmud,

Thank you for sending this over.

This proposal looks helpful from a scope and pricing perspective. I'm happy to use it as the commercial quotation and milestone outline, but the signed GoodNiva agreement will remain the governing agreement for confidentiality, IP ownership, repo/account control, handover, and data protection.

The overview and background look broadly aligned with the GoodNiva concept as well. I'd just like to confirm that the quotation and delivery will follow the GoodNiva blueprint, MVP scope, trust/safety rules, and final agreed tech stack, as those materials remain the main reference point for the project. Please make sure the build follows the developer pack I sent across.

One reason this is important is that GoodNiva is intended to be a friendship-first UK mobile and web product focused on helping verified adults create safe local meetup plans and turn shared interests into real-world friendships, with a tightly defined MVP around onboarding, verification, create/join plans, vote-and-lock planning, reminders, joined-users-only plan chat, smart place suggestions for meetups, visibility of nearby upcoming plans, place suggestions, and block/report moderation. It also has specific trust and launch rules such as verified-to-meet gating, public-first meetup defaults, area-level location rather than exact home-address exposure, anti-flake confirmations and reminders, and clear MVP boundaries around what is in and out of scope. I want to make sure those points remain central to the build and are reflected in the final delivery.

I also checked the Figma link. The design direction looks quite similar to Facebook in style, and for GoodNiva I would want something more unique and clearly different. I do like the network chain idea, but the app itself should have its own distinct identity and not look like the example you sent me.

Please keep that in mind in the UX/UI direction so the final product feels original and aligned with the GoodNiva brand.

Once that is confirmed, I am happy to proceed with the quote and order.

Best regards,
Petr Kis

Me

21 Mar, 16:51

Hello Petr Kis

Thank you so much for your responses.

I understand your concerns about the design, and I want to reassure you that while the Figma link I shared is just a prototype, I will create a unique design that aligns perfectly with your requirements.

You don't need to worry about it; I'll ensure it stands out as a distinct product.

As an experienced developer, I'm confident that I can accommodate any changes you'd like to make throughout the process.

Your satisfaction with the final product is my top priority.

To move forward, would you like me to send you the custom offer for the first milestone now?

Best regards,
Mahmud (CEO)

P petrkis

Hi Mahmud,

Thank you for your response.
I appreciate the clarification, and I'm glad to hear that the final design will be unique and aligned with the GoodNiva concept.

Before we proceed, I would just like to confirm that you are happy to move forward on the basis already discussed: that your proposal will be used as the commercial quotation and milestone outline, but the signed GoodNiva agreement will remain the governing agreement for confidentiality, IP ownership, repo/account control, handover, and data protection.

I would also like to confirm that the quotation and delivery will follow the GoodNiva blueprint, MVP scope, trust/safety rules, and final agreed tech stack, and that the build will follow the developer pack I sent across.

Could you also please confirm whether the app icon is included as part of the design work for the project?

Once that is confirmed, I'll be happy to review the custom offer for the first milestone.

Best regards,
Petr Kis

21 Mar, 17:23

Me

I confirm we're fully aligned on the agreement, blueprint, MVP scope, and developer pack.

Regarding the app icon, while I normally charge separately for logo/icon design, I'm happy to provide it for you free of cost as part of this project.

Once confirmed, I can send the custom offer for the first milestone so we can get started.

21 Mar, 17:31

P petrkis

Hi Mahmud,

Thank you for confirming.

That sounds good, and I appreciate you including the app icon as part of the project.
Please go ahead and send the custom offer for the first milestone, and I will review it so we can get started.

Best regards,
Petr Kis

Me

25 Mar, 13:02

Hi Petrkis,

Hope you are doing well.

We have created a reference logo for your app. Please review it and confirm if the logo and its colours are suitable for your app.

Looking forward to your feedback.

Image (27).jpg (17.1 kB)

P petrkis

25 Mar, 15:04

Hi Mahmud,

Thank you for sharing the logo.

I think it's a good starting direction and I like the idea of combining people and location/community in the icon. The overall feel is friendly and modern.

Before finalising it, I would like to explore whether it can be made a little cleaner, more distinctive, and slightly more premium, especially so it works strongly as both a brand logo and a small app icon.

I would also prefer the brand styling to be written as GoodNiva rather than Goodniva, as I think that looks clearer and stronger for the brand.

Could you please also show:

- an icon-only version
- a simplified version for small sizes
- a monochrome version
- a dark background version

I'd also be happy to see 2-3 alternative variations please so I can compare the direction before we settle on the final logo.

Best regards,
Petr Kis

Me

25 Mar, 15:1

Thank you for your valuable feedback, we completely understand your concerns.

Before we proceed with refining and sharing the updated logo variations, we would like to first finalize the color direction used in the reference logo. This will help ensure consistency across all the versions we create (icon-only, simplified, monochrome, and dark background).

Once the color is confirmed, we'll prepare the improved and alternative logo options for your review.

Looking forward to your thoughts on the color direction.

P petrkis

25 Mar, 15:19

Thank you for your message.

That sounds good. To be honest, I really like the colour direction used in the reference logo, so I'm happy to keep that as the base for the next versions.

Please go ahead using those colours and prepare the refined logo options, including the icon-only, simplified, monochrome, and dark background versions, along with a few alternative variations for comparison.

I look forward to reviewing them.

Best regards,
Petr Kis

Me

25 Mar, 15:24

Thank you so much for your thoughtful feedback.

I'm glad to hear you're happy with the colour direction used in the reference logo.

We'll move forward with those colors as the foundation for the updated versions.

Hello Patrikis,

We will share the design file with you tomorrow.

Additionally, we would like to inform you that we have updated the Figma, including the profile, group chat, and homepage.

We are continuing to make further improvements.

Please review the design and share your valuable feedback.

P

petrkis

31 Mar, 0:26

Hi Mahmud

Thanks for sharing the updated designs. I've reviewed them, and I can see that we are moving in the right direction. The app is definitely becoming more polished and more aligned with the direction we discussed, so I appreciate the work and progress so far.

I've added detailed comments in Figma with feedback on the homepage, profile page, and chat page to guide the next direction. The main goal now is to make the experience feel more welcoming, community-driven, and more closely aligned with the app's overall purpose.

I have also included a reference image in the Figma comments for the homepage so the visual direction is clearer, especially for the warmer and more welcoming feel I want to achieve there.

Overall, this is a positive step forward, and I'm glad to see the progress. Please go through the Figma comments and use them for the next update.

Kind regards Petr

Me

31 Mar, 0:36

Thanks for your feedback.

I have already passed it to my team and will update you soon.

Regards,
Mahmud

Thank you for your thoughtful response!

We truly appreciate your continued support and trust in our work.

Thanks again for your collaboration. We're excited to continue working together on this.

Best regards,
Mahmud

p

petrkis

Hi Mahmud,

Thank you for your kind message.

I appreciate your note and am glad to continue supporting the project. It has been a pleasure collaborating with you and the team, and I am also looking forward to our continued work together.

Best regards,
Petrkis

Me

You're very welcome.

It's been a pleasure working alongside you as well.

I'm excited for what lies ahead and confident that we'll continue to accomplish great things together.

Let's keep up the momentum and make this next phase even more successful.

Me

Hi Petrkis,

Hope you are doing well.

We have updated the Figma design based on your comments. Please review it and share your feedback.

If everything looks good, we are ready to move to the next step: frontend development, where you will be able to see the app visually.

No worries, if there are any changes or feedback, we will address them before moving forward.

p

petrkis

Hi Mahmud, I've added all the Figma comments for the changes and improvements that need to be addressed. I've also added 2 reference images on the home page along with a comment to show the direction I'd like that screen to follow. The UI/UX design is very important for this app, and the admin panel design is equally important as well, so I'd really appreciate it if these points could be reviewed carefully. I'd also like these issues to be fixed individually, so each comment can be addressed properly and with attention to detail. Once these are resolved, we'll be in a much stronger position and more ready to move confidently into the next module. Thanks again for the work so far – I'm looking forward to the next updated version.

Me

Thanks for your update.

I have passed this message to my team.

I will get back to you with an update soon.

p

petrkis

Thank you Mahmud. I really appreciate it.

Me

You are most welcome.

Me

Hi Petrkis,

Hope you are doing well.

We've been trying to carefully address the comments in Figma, but we are facing some difficulties understanding a few points. Therefore, we would like to arrange a meeting to clarify everything.

We are available between 8 AM to 5 PM GMT+6.

Please let us know a time that works for you.

p

petrkis

Hi, thank you for your message.

9:30 AM UK time works for me, which should be 3:30 PM your time (GMT+6). Please let me know if that suits you, and we can arrange the meeting then.

Best regards Petr

Me

Okay, as you say, we will join at that time.

p

petrkis

That's great looking forward to the meeting.

Me

Oaky, thank you so much.

p

petrkis

petr,

I hope you are doing well.

I'm glad to inform you that I have signed the document.

I would be happy to move forward now.

Looking forward to your response

petr

Hi Mahmud thank you for signing the agreement. Please move forward now.

Me

Okay, I am sending the offer now.

Thank you so much for accepting the offer

Me

Hello Petr,

Hope you are doing well.

We have started working on the additional features based on your requirements. So far, we have completed some parts, including the Feed, Circle, and News/Announcement sections. You can review them and share your feedback directly in Figma comments if you'd like. Additionally, we have a few clarifications:

-Who will create group competitions? Will it be the Admin, Community Owner, or both?

-For the group progress and achievements section (match counts, wins, competitions), could you please explain how you'd like this to function?

Also, regarding the "Crew" section, it would be really helpful if you could provide a more detailed explanation (structure, purpose, and how users will interact with it). This will help us implement it more accurately.

Looking forward to your feedback.

petrkis

Hi Mahmud

I hope you are doing well. I would like to say that the feed page looks great.

Circle page: I want Community and Group to stay separate:

Community = the bigger parent space for communities / circles / announcements

Group = the smaller unit shown within that community

For the group competitions part, I want this kept simple and controlled:

Community Owner creates the competition shown inside the community

Group Admins manage their own group's participation

Group Admins should not create public competitions themselves.

For the group progress and achievements section, I want it to function as a structured sports-focused block inside the Community / Circle page, not as a separate advanced system.

This section can show:

match counts

wins

competitions against other groups

group rank / position

recent or upcoming match info where relevant

From the UI side, it should appear as a clear card / block within the Community / Circle page, alongside the groups and announcements, and stay aligned with the existing premium / polished design direction.

For the Crew section, I prefer to leave that out of MVP for now, because we already have Groups and Communities, and I do not want to duplicate those structures or add another similar layer at this stage. So for now, please keep the focus on Communities and Groups only.

Best regards Petr

Me

Hi Petr,

Thank you so much for your valuable feedback.

I've shared your comments with my team, and we are reviewing everything closely.

I'll keep you updated with the progress and any new developments shortly.

Thanks again for your continued collaboration.

Best regards,
