PROMOTED

Hello

🔗 [Translate to English](#)

Me

Hello Ram,

How are you doing today?

Let me know how I can help you.

ram_zi20

I want to creat an app that allows sellers to sell events like camping trip ext I will tell u more in detail and I want to have 3 type of accounts seller account and buyer and the admin account so I can manage things from it and for seller account they will have in them account rate and reviews and follow bottom so when someone follow them they get notification when they publish something and the publish should have description picture the start location and destination and return location and that's for trip while some event just have location and in publication have map showing start location and how the trip will go and he can do either standard ticket or vip and he does mention under what extra u get with vip and how long will be the trip from hous to days then the buyer can search and set things like location distanton most recommended by the seller view and rate and the high demand then the buyer can open the seller account see him trips publish and can review him and rate him and for the trip when he want to reserve he reserve and his details will go to the seller the details should be phone number first and last name and the age then will have to wait for the seller to confirm that he in the trip by accepting his reservation and when he does he join automatically to this exact trip group chat him and all authorised buyers and the seller and they can text and send photos and videos and I have the chat doesn't lag of freeze and will be with notification if or if the app and even when u get accepted u get notification and hope its all defrent sound and after the trip ends the seller confirms it so it can get deleted the post and the chat will get deleted after the trip ends with 7days so they can send the pictures they sent to each others and for the categories I want it to be trips camping event musical night out and holiday packages and I want one section for offers where seller can do publishes as offer in there and I can put things on it like draw for prize with thing to do like follow instagram and have to had number of reservations I will put it down and for buyer and seller you can see in them how many reservations they made and for buyer they can report seller and leave reviews on them and they will be seen just by buyers only

ram_zi20

and when they wanna register first they gat asked if u wanna register as seller or buyer and if as seller he got asked first and last name email and phone number and date of birth and for buyers the same things plus aske him to send his id and picture of his face so he get badge on his account saying his secured seller and his id picture and his face get save in his profile and no one can see it but the admin and he can do it later in the setting

ram_zi20

and the app will be working in Algeria so it would be good if it can be in English franch and Arabic and want automatic email reply like remind that his trip close and he need to get ready and after the trip is end email asking him to rate and review the seller with link of the seller that he went with and contact us with instagram or email and I want to link my instagram profile to the app so u can go to my instagram from the app and I want in the offer sections I can put offer from defrent shops as an add or I can put adds as small window in home page and for later i would want to make tickets and reservations with international payment and local payment so if u can make sure that would be able to add it later on and would it be able to hold as much as users in one time as I want in iOS and android and I already have a logo in mind

Me

Hello Ram,

Thank you so much for sharing your detailed requirements for your project.

Please kindly give me some time to review everything carefully, and I will give you the update based on this.

Looking forward to working together.

ram_zi20

Ok thank u so much and can u make should that after I will be the only one who can controls and own the app after u creat and for the app I want it to look Morden and match with my logo and would u be able to offer me services after that still like update and adding more things and if I have any problems with it

ram_zi20

So would u be able to tell me if u can do it in high Cality no freeze no lag and how much will coast me plus how long will take

Me

Yes, absolutely.

Once the app is completed, you will have full ownership and control of it.

I will make sure the app looks modern and matches your logo and brand style.

After delivery, I will give you 10 months of free maintenance support for your application.

If you face any problem, any bug, any issue in these 10 months, we will fix everything for free.

We'll make sure everything is set up so you have full control and flexibility with your app.

Looking forward to creating this with you.

30 Mar, 13:17

Yes no problem take ur time I am just writing down things so I don't forget and u know for get in contact with us can u made them able to text me in the app chat as the app admin just the seller can get in touch with as admin profile and I can chat with them aswell and for chat u can see groups in one side buyers and sellers separately and admin one just for the seller so I can get in touch with them and with other sellers between them and I can reserve from my admin account but will put the details I want and thank u for ur understanding and I will be waiting to hear from u

Me

30 Mar, 13:18

Thank you so much for sharing this again.

Let me review everything.

Me

30 Mar, 13:33

Hello Ram,

Thank you for giving me the flexible time to review your requirements and prepare a detailed quotation for you.

I've prepared a detailed quotation for your project, which you can access through the link below.

Quote link:

https://docs.google.com/document/d/1Bj9Pbcy01lcEisznJ8CbqYiyKDNpm_UB1aeH64K_c/edit?usp=sharing

Note: We use milestone-based pa-yments, so you p-ay as each stage is completed, not upfront.

What you'll get:

- 300 Days of Complimentary Post-Launch Support
- 24/7 Availability for Assistance
- Regular Development Updates
- Weekly Check-In Meetings

My dedicated team, including UI/UX Designers, front-end developers, Backend Engineers, and Quality Assurance Experts, will be engaged at every stage to guarantee a top-notch outcome.

Take your time to review the quotation, and feel free to reach out with any questions.

I'm here to ensure that the project exceeds your expectations

Thanks again, and I look forward to hearing from you.

Best regards,

Rakibul

30 Mar, 14:32

U know for id picture and face it's for the seller not buyers so when they do they get secure seller badge and not one can get the id but me the admin and just the admin can approve the id And for reporting the seller can go to me the admin and even the seller can rate and review the buyers and in chat I want separate chats one for the groups one for seller and one for the admin but they don't show up till u have one in them

R ram_zi20

30 Mar, 14:33

And can u just make it clear for me so I will have to pay u before u start any stage

R ram_zi20

30 Mar, 14:34

And after u finish it the app are there any fees I need to pay or any monthly fees?

R ram_zi20

30 Mar, 14:37

And how will the payment goes

Me

30 Mar, 14:37

Hi Ram,

Thank you for your questions, I'll clarify everything clearly:

- ID and face verification: Only you, as the admin, will have access to approve seller IDs and issue the secure seller badge. Buyers will not see anyone else's ID.
- Reporting and ratings: Sellers can report to you (the admin) and also rate/review buyers.
- Chat system: We can create three separate chat types, group chats, seller-to-buyer chats, and admin chats. Each chat will only appear when there is at least one message in it, as you requested.
- Pa-yments before starting a stage: Yes, each stage of the project will start after you pa-y for that milestone, following Fiverr's standard milestone workflow.
- Post-delivery fees: Once the app is delivered, there are no monthly fees from me unless you request ongoing maintenance, updates, or new features.
- Pa-yment processing: Pa-yments from your buyers can be handled through your preferred pa-yment gateways, which we can integrate during development.

Let me know if you want me to prepare a clear milestone plan so you can see stage-by-stage delivery and pa-yments.

Me

30 Mar, 14:41

I split the total cost into 4 milestones, making it easier for you to manage the pa-yments without any pressure.

Milestones:

- 1st milestone: UI/UX design using Figma: \$1,800 USD || 20 days.
- 2nd milestone: Front-end development: \$2,000 USD || 25 days.
- 3rd milestone: Backend development phase: \$1,800 USD || 45 days.
- 4th milestone: Q/A testing & Deployment: \$500 USD || As per policy.

Total cost: \$6,000 USD

Total timeline: 90 days.

If u can just add that aswell pls

Okay, for you, I will add this, no worries.

Me

Hello Ram,

I hope you're doing well.

This is Hasnain, your UX/UI Designer for the Trip & Event Booking Application project.

I'm excited to be assigned to your project and after reviewing the overall concept and logic, I must say it's a very promising and well-thought-out idea.

I'm happy to let you know that I've already started working on it and begun the research phase to ensure everything aligns perfectly with your goals and expectations.

Very soon, I'll share a detailed and structured documentation with you covering the full flow and approach.

R ram_zi20

30 Mar, 18:47

Thanks and me too
And I can add more stuff bc I just get more improvement ideas so if u can add them aswell on the plan and I hope I am not doing u headache guy
So what I wanted to add in users details all of the seller or buyers can I add the location or city they are based on and for the reservation confirmation they don't get them till the trip is done and can u do them option that they can put number of places on the trip the seller and he can change it any time either more or less and even when he accept someone reservation he can delet it later and it does count for the buyer as reservation and when he get he's reservation deleted he get kick out of the group and the seller he have time till after the beginning of the trip to delet someone reservation and for me the admin I can create group chat add seller and buyer that I want and but the as customer or organiser for the sellers

Me

30 Mar, 19:01

Okay noted.

R ram_zi20

30 Mar, 19:02

Thank you 🙏

Me

30 Mar, 19:02

You are welcome.

Me

30 Mar, 20:19

Hello Ram,

The ideas you've shared are absolutely possible to integrate with your product's overall logic.

I really appreciate how thoughtfully you're thinking about improving the system.

What I'll do is carefully align your new ideas with the existing feature set and analyze how they fit in—especially in terms of functionality and how the system will behave.

Before moving forward with implementation, I'll share everything with you for confirmation so we stay fully aligned.

Also, before we finalize the documentation, if you come up with any additional ideas or improvements, feel free to share them with me anytime—I'll make sure to include and evaluate them properly.

One quick question—on your Fiverr profile your name shows as "Ram_zi20."

If you're comfortable sharing your actual name, it would be easier for me to address you properly.

I truly respect your vision and the way you're thinking about this product.

Thank you for such a great and collaborative approach—it really makes the process smooth and enjoyable.

Best regards,
Rakibul and team

R ram_zi20

30 Mar, 20:23

Thank u very much and if I got any more new ideas I will let you know and even u u can give me ideas as ur the expert and u have an idea about the app and yes my name is Ramzi

Me

30 Mar, 20:27

Thanks for your clarifications.

Me

30 Mar, 21:53

Hello Ramzi,

Thank you so much for your kind words - I truly appreciate it.

It's great to know that you're open to sharing ideas, and I'll definitely do the same from my side to make the app even better and more effective.

I'm really glad we're on the same page when it comes to collaboration.

With your vision and my design expertise, we can shape this product into something very strong and user-friendly.

Feel free to share any new ideas anytime - I'll review and align them properly within the system. I'll also be sharing my suggestions during the process to enhance the overall experience.

Looking forward to building this together, Ramzi.

R ram_zi20

31 Mar, 7:59

And u know brother for the seller account they can reserve trips aswell and they buyer can upgrade to a seller

Me

31 Mar, 8:0

Got it, Ramzi!

That sounds like a great feature to allow buyers to upgrade to sellers.

I'll make sure we integrate it smoothly.

R ram_zi20

31 Mar, 8:21

Okay and u know sometime they go from places maybe don't show on the map so when seller is selecting location of depart or destination he can write the name of the place manually and do the pin on the map that come with the publication

R ram_zi20

31 Mar, 8:21

And thank u for ur availability and ur understanding

Me

31 Mar, 8:24

Okay, I understand.

Thank you for your clarity and feedback!

I'll keep you posted.

Me

Hello Ramzi,

Thank you for sharing this idea - it's a very practical and valuable feature.

Allowing manual location input along with map pin placement will definitely make the system more flexible and user-friendly, especially in cases where locations are not available on the map.

I'll make sure to integrate this properly into the product flow and include it clearly in the documentation for your review and confirmation.

Best regards,
Rakibul

31 Mar, 8:30

Me

Hello Ramzi,

We have carefully reviewed everything in detail, including the full conversation history, quotation document, and all previously identified mismatches or missing points.

After thoroughly analyzing and aligning all requirements, we have now prepared a final consolidated feature list.

The purpose of this process was to ensure that there are no gaps, missing logic, or misunderstandings in the project scope, so everything is clearly defined before moving into the design phase.

I am now sharing a Drive link with you :

https://drive.google.com/drive/folders/tz2FPAFFvysyJFXblQnknJgRMD_shpXVd?usp=sharing

Kindly go through all the folders and review the final feature list carefully.

Once you confirm that everything looks correct and aligned with your vision, we will proceed with full focus on the UI/UX design phase.

Looking forward to your confirmation.

Thank you very much for your support and collaboration.

31 Mar, 12:41

ram_zi20

U know brother the security badge I want to be seen by public showing that this seller is trusted and they don't have to do the id check to open account they can skip it and do it later and it's only for the seller not the buyer and for the buyers they can leave me a report and I check then if I want I can chat with them and u know for the chat after the trip end they need to get notified as a chat that this chat will be deleted after 7days and for the trip post they need to get confirmation from the seller that the trip has ended then they delete it and u know for the system of the draw for prize can the system confirm that they have all the conditions before get them in the draw and for me later I see all the people in the draw and I do the spin draw so it does show the one who has been pick up and in offer page will I be able to just put picture as link and the review I want it to be visible to everyone just the buyer review that he get need to be visible just by me and the seller not the other buyers and for search filter can u add aswell if they want mix trip or just girls or just boys as this will be selected by the seller when he first do the public and what do u mean by ux critical risk if all the the seat been book the publication becomes fully booked and u can't reserve and if the seller wanna reduce the seats but itwill be below the available booked people he can't he need to delet the reservation first and live chat for the buyer telling him why and for mismatch missing features can u do it from u what u think will be best to put and if u can just let me know about what u did added

31 Mar, 13:47

ram_zi20

And if I said something and it wouldn't make sense doing or there's better option to do just do and let me know bc I hope I get ur touch as an expert if u get me

31 Mar, 13:48

Me

Hi Ram,

Thank you for sharing all the details.

I'll discuss these matters with my team to ensure we implement everything in the best possible way.

We will review the security badge, ID check process, chat notifications, prize draw system, offer page setup, review visibility, search filter, seat booking system, and live chat features as you mentioned.

I'll keep you updated on the progress. I'll be sure to provide that feedback and keep you informed.
!

31 Mar, 13:51

Me

Thanks for the clarification.

I understand your points about the bedge visibility, id verification, chat system, review visibility, and draw system - these are really valid points, and we truly appreciate them.

I will update the feature list accordingly and also improve some parts where needed to make the system more user-friendly and scalable.

If anything is not technically optimal, I will adjust it and implement the best possible solution.

I'll share the updated version with you soon.

Thanks

31 Mar, 14:06

ram_zi20

Thank you very much

31 Mar, 14:25

Me

Most welcome.

31 Mar, 14:27

Me

About the draw system, I just want to clarify one thing.

This is a new feature you mentioned, so I'd like to better understand how you want it to work.

Is the draw meant to be for a specific trip/event? For example, only users who booked that particular trip will be included, and the seller of that trip will run the draw and select a winner from those participants.

Or do you have a different idea for how the draw system should work?

31 Mar, 15:03

Please let me know your preferred approach so I can design it correctly.

Me

Hello Ramzi,

Thank you so much for your detailed feedback – it really helped us refine the system further.

We have carefully reviewed all your points and updated the full feature list accordingly.

This includes improvements such as the public trusted badge system, updated review visibility, trip completion flow, chat deletion notification, prize draw system, advanced filters (boys/girls/mixed), and all other logic adjustments you mentioned.

We also added a few expert-level enhancements to make the experience smoother and more reliable.

Everything is now fully aligned and structured to avoid any gaps during design and development.

I'm now sharing the updated final feature list with you.

Kindly take a moment to review it and let us know if everything looks perfect from your side.

Once we receive your confirmation, we will immediately move forward with the full UI/UX design phase.

Thank you again for your collaboration and trust – really excited to build this with you.

ram_zi20

Yes for the draw it just me who does control it u need to have buyer account to join and if u do have the condition like following us on instagram and had done number of reservation I select u go automatically in the draw after u apply to it but if u dont have the conditions u can't join and u get asked to do the conditions first so u can automatically get accepted in the draw and after that i can see who's in the draw list and i do the draw in the app and the app give me how many users i want and one more thing for tickets u can add more then just standard ticket and vip and u will name it and set price for each one

Me

Okay noted.

ram_zi20

And one more thing can u do when user sing in as seller he join to a group that called community centre where me and every seller can text each other and keep us updated

ram_zi20

Together

ram_zi20

And u know for the chats i think it will comes with common features of chats as muting ext ...

Me

Okay, got it. So the draw will be handled by you.

Every buyer needs to complete the required conditions (like booking, following on Instagram, etc.) to join the draw, and then you will select the winners from those users, right?

Also, just to confirm, this draw system is not handled by the seller for each trip/event; it's fully managed by you.

Thanks.

ram_zi20

Yes it's managed by me and can the app automatically confirm the the condition are met before taken the buyer in the draw and the app can do the draw and select the winner

ram_zi20

And have u got my message about the chat group (community centre) where all sellers join in it automatically

ram_zi20

And i will be on it aswell

Me

Hello Ramzi,

Thank you again for sharing your ideas and helping us refine the product. We really appreciate your involvement and clarity.

We have already started incorporating your latest points into the final feature list to make sure everything is well structured and aligned with your vision. At this stage, I would like to share one important point with you.

The project budget we provided is based strictly on the features included in our quotation.

Since we have not had a live meeting and have been building everything through chat, we have already made considerable adjustments and added several enhancements based on your ideas to ensure the product is modern, user-friendly, and well-optimized.

For this reason, we kindly request that no additional new features be introduced at this stage, so we can avoid scope changes and maintain a smooth workflow.

Once we complete the MVP (first version) of the product, we will be more than happy to move forward with Version 2, where you can introduce new ideas and additional features, and we can expand the platform further.

For now, please review everything and confirm if we can proceed with the design phase.

Looking forward to your confirmation, and thank you again for your collaboration.

ram_zi20

Okay so will u be able to add what i mentioned and show me what we covered so far so i can confirm it

Me

Okay.

Me I've already added everything on my side. If you open the Drive link I shared with you, you will see a folder named Final Feature List. Inside that folder, I have updated the V3 feature list. Please review it and confirm once you check it.	31 Mar, 17:53	
R ram_zi20 Ok I will just give me mn	31 Mar, 18:35	⌵
Me Sure you have the time no worries	31 Mar, 18:43	
R ram_zi20 Cool it's looks good for me and just asking bc I think u will be doing this anyway me as admin will I be able to see how many seller and how many buyer are in the app and would I be able to see how many reservations has made and how many trip like normal data analytics and for the adds as well and the missing things has it been Done by u and for decoration we will come to it later ? Apart of this questions I am happy to move forward	31 Mar, 19:38	
Me Thank you for your message. At this moment, our developers are unavailable as it is nighttime in our region. I am currently reaching out to them. If I can get in touch, I will promptly provide you with an update. Otherwise, please anticipate a response tomorrow morning when they are back in the office. We truly appreciate your patience and understanding.	31 Mar, 19:39	⌵
R ram_zi20 Thank u	31 Mar, 19:40	
Me You are welcome.	31 Mar, 19:41	
Me Hello Ramzi, Thank you for your message — really glad to hear that you're happy to move forward. Yes, absolutely — as the admin, you will have full visibility and control over the platform. You will be able to see : - Total number of sellers and buyers - Number of reservations made - Trip performance (how many bookings each trip has) - Basic analytics to track activity and growth - Ad performance and management as well Also, all previously missing points have already been completed and updated in the final feature list (V3), so everything is now fully aligned. Regarding design (UI decoration), no worries at all, we will handle that carefully in the design phase and make sure the app looks modern and matches your brand perfectly. Since everything is confirmed from your side, we will now start the design phase. Looking forward to sharing the first design updates with you soon.	31 Mar, 21:02	⌵
Me Thank you again for sharing your logo earlier, we have received it and will align the design accordingly. To move forward with the design and ensure everything matches your brand perfectly, we'd like to confirm a couple of things from your side : What kind of theme color would you prefer for the app? (or should we strictly follow the logo colors?) Do you have any specific font preference, or should we choose a modern and suitable font for you? Once we have this, we'll finalize the design direction and proceed smoothly. Looking forward to your response.	31 Mar, 21:06	⌵
R ram_zi20 Yes it does sound good and for colors can it be them three colors of the logo and the white can u do the dark theme so when it's night it turns dark and for the app how it looks like just u do ur design and modern look aswell	31 Mar, 21:31	
Me Okay, thank you.	31 Mar, 21:31	⌵
Me Thank you for your input, really appreciate it. Regarding the dark theme, based on the app concept and overall user experience, we believe it may not align perfectly with this platform. Instead, we will focus on creating a clean, modern, and user-friendly design using your logo's brand colors. We will design the app carefully following your brand identity, and we're confident that you will like the final result. Thank you again for your trust and support.	31 Mar, 21:38	
R ram_zi20 Okay if u think that's the best I am happy to do so	31 Mar, 22:49	
Me Okay, thank you.	31 Mar, 22:53	⌵
Me Hello Ramzi,	01 Apr, 9:24	

Thank you — really appreciate your trust.

We will move forward with the design using your logo's brand colors and focus on creating a modern, clean, and user-friendly interface.

Looking forward to sharing the first design updates with you soon.

R ram_zi20
Okay thank u

01 Apr, 12:42

Me
Most welcome.

01 Apr, 12:42

Me
Hello Ramzi,

02 Apr, 23:38

I'm really excited to share that we've started the design phase of your app, and we've already made great progress.

So far, we have completed the Splash Screen, Onboarding experience, and Authentication flow, carefully designed to match your brand and ensure a smooth user experience.

You can explore the current design from the Figma link below :

Figma Prototype Link Here - <https://www.figma.com/proto/9ZjBnKBL2BwESmULagLM9l/Trip---Event-Booking-Application?node-id=26-4392&p=1&viewport=527%2C347%2C0.02&t=zShtGIXHfJokw8SF-1&scaling=scale-down&content-scaling=fixed&starting-point-node-id=26%3A4258&page-id=0%3A1>

Figma Design Link Here - <https://www.figma.com/design/9ZjBnKBL2BwESmULagLM9l/Trip---Event-Booking-Application?node-id=25-4256&t=kQc8oS99wDTelroG-1>

Please feel free to take a look and share your thoughts anytime — we will continue working on the next screens in the meantime.

Looking forward to your feedback.

R ram_zi20
It looks good to be honest but u know just question u know when u open the app after does it show the app logo and name ?

03 Apr, 2:13

Me
Thank you for your message.

03 Apr, 2:16

At this moment, our developers are unavailable as it is nighttime in our region.

I am currently reaching out to them. If I can get in touch, I will promptly provide you with an update.

Otherwise, please anticipate a response tomorrow morning when they are back in the office.

We truly appreciate your patience and understanding.

R ram_zi20
Yes no problem and u know for the documents verification can u put in brackets optional pls so they know bc some maybe when they see that they wont Carry on

03 Apr, 18:25

R ram_zi20
And thanks

03 Apr, 18:25

Me
Thank you for your feedback.

03 Apr, 18:28

I will inform my team and get back to you with an update.

R ram_zi20
Ok and just wanted to make sure that the costumer can reserve more than one place and it does show to the seller

03 Apr, 22:02

Me
Your message has been sent to my team.

03 Apr, 22:10

I will update you as soon as possible.

Thank you.

Me
Hello Ramzi,

03 Apr, 22:32

Thank you so much for your kind feedback — I'm really happy to hear that you liked the overall design.

It truly means a lot and gives us more confidence to move forward in the right direction.

Yes, when the app opens, it will first show the app logo and name. After that :

If the user is already signed up, they will go directly to the login screen
If not, they will go through the onboarding flow and continue step by step

Regarding the ID verification, that's a great point — we will make it optional, and I will update this by tomorrow.

Also yes, customers will be able to reserve multiple seats, and the seller will clearly see how many seats each buyer has booked.

I will update this flow as well, and you'll be able to see it in the next design update link.

We will continue improving the design step by step following this flow.

Thanks again for your trust — really excited to keep building this with you.

R ram_zi20
Ok thank u thanks very good to hear and I am looking forward to see how the app will look like

03 Apr, 23:11

Me
You are most welcome.

03 Apr, 23:4

R ram_zi20 05 Apr, 16:27
U know would it be able to add voice messages on the chats ?!

Me 05 Apr, 16:39
Yes, absolutely, we can add voice messaging to the chat system.

It's a great feature and will make communication much more interactive and user-friendly.

We will include it in the chat functionality and design it in a smooth and modern way.

Thank you for the suggestion.

R ram_zi20 05 Apr, 17:35
Thank u very much

Me 05 Apr, 17:35
You are welcome.

R ram_zi20 05 Apr, 17:39
Thank u and u know I checked it and the posters are on are saying Morocco as location can u do it
Algeria pls bc I wanted to take some screenshots for my instagram profile

Me 05 Apr, 17:40
Okay, noted.

Thank you.

R ram_zi20 05 Apr, 17:40
Thank u

Me 05 Apr, 17:41
You are welcome.

Me 05 Apr, 18:07
Sure, no problem, I'm updating it to Algeria right now.

You'll be able to use it for your screenshots very soon.

Me 05 Apr, 18:59
Hello Ramzi,

I'm happy to share that I've completed the main Buyer-side screens along with a proper interactive
prototype.

I'm now sharing both the Figma design file and the prototype link with you so you can explore the full
flow and experience how the app works.

[Figma Design Link : https://www.figma.com/design/9ZjBnKBL2BwFSmULagLM9j/Trip---Event-Booking-Application?node-id=0-1&t=sUDB4uXZik84NuBO-1](https://www.figma.com/design/9ZjBnKBL2BwFSmULagLM9j/Trip---Event-Booking-Application?node-id=0-1&t=sUDB4uXZik84NuBO-1)

[Prototype Link : https://www.figma.com/proto/9ZjBnKBL2BwFSmULagLM9j/Trip---Event-Booking-Application?node-id=87-195&p=f&viewport=1414%2C634%2C0.05&t=MLXyRlywDI4Iype7u-1&scaling=scale-down&content-scaling=fixed&starting-point-node-id=26%3A4258&page-id=0%3A1](https://www.figma.com/proto/9ZjBnKBL2BwFSmULagLM9j/Trip---Event-Booking-Application?node-id=87-195&p=f&viewport=1414%2C634%2C0.05&t=MLXyRlywDI4Iype7u-1&scaling=scale-down&content-scaling=fixed&starting-point-node-id=26%3A4258&page-id=0%3A1)

Please take a look and let me know your feedback.

Your thoughts are very important, and I'll continue refining the design based on your input.

Looking forward to hearing from you.

Thank you.

R ram_zi20 05 Apr, 19:21
And u know for the price can u put DA not dollar

R ram_zi20 05 Apr, 19:23
And for the trips can u put the suitable pictures for each trip

Me 05 Apr, 19:24
Okay, noted.

R ram_zi20 05 Apr, 19:24
Thank u

R ram_zi20 05 Apr, 19:24
And it looks good so far

Me 05 Apr, 19:24
You are welcome.

Me 05 Apr, 19:27
Yes, no problem at all, I will update the price format to DA instead of dollars.

And for the trips, I'll also make sure to use suitable and relevant images for each one so it looks more
realistic and appealing.

I'll include these updates in the next design version for you to review.

R ram_zi20 05 Apr, 20:10
Yes no problem and u know for the location can u put like the city and then Algeria like (Oran,Algeria
or Algiers,Algeria) and u know when u do desert trip can u do location desert City pls just so i can
take some screenshots for my instagram account

R ram_zi20 05 Apr, 20:10
And thank h so much for you understanding

Me 05 Apr, 20:12
You're most welcome.

I'll give you the update tomorrow

I will give you the update soon.

Edited

R ram_zi20

And u know for the trip post can u make it show how many people are going and how many places are left

05 Apr, 20:15

Me

Okay, I have also told my team about it, gonna give you the update soon

05 Apr, 20:20

R ram_zi20

Thanks

06 Apr, 1:51

Me

You are welcome.

06 Apr, 1:51

Me

Hello Ramzi,

06 Apr, 8:20

Yes, we can definitely show how many people are going and how many spots are left on each trip post that will be included in the design.

Also, just to clarify something important, the app design is not fully completed yet.

There are still some core features remaining, and once those are added, the overall logic and experience will become much clearer to you.

Regarding the image, name, and location changes you mentioned — those are not static.

Everything is dynamic and can be easily changed later.

Since you're planning to take screenshots for Instagram, you can absolutely use the current version for that purpose. At this stage, it's just a demo to represent the concept.

After this, we will move to frontend and backend development, where everything will become a fully functional real product.

Figma is mainly to give you a realistic preview of how the app will look and work.

One more small request, please try not to add any new features that were not included in the final feature list document, as we have already carefully structured everything to keep the project smooth and within scope.

Thank you so much for your understanding and support

R ram_zi20

As okay thank you 🙏

06 Apr, 13:46

Me

Welcome

06 Apr, 13:47

Me

Hello Ramzi,

08 Apr, 16:19

I hope you're doing well.

How is everything going on your side?

Just a quick update — we've completed 100% of the Buyer side and around 50% of the Seller side so far.

We're making great progress and aiming to complete the full design by tomorrow.

I'm sharing the current Figma file with you so you can explore the progress and see how everything is shaping up.

🔗 Figma Link : <https://www.figma.com/design/9ZjBnKBL2BwESmULagLM9i/Trip---Event-Booking-Application?node-id=0-1&t=QxF92U5GRgWf8haA-1>

🔗 Figma Prototype Link : <https://www.figma.com/proto/9ZjBnKBL2BwESmULagLM9i/Trip---Event-Booking-Application?node-id=87-195&p=f&viewport=1395%2C567%2C0.06&t=HyUMJMOPfzMDfnYF-1&scaling=scale-down&content-scaling=fixed&starting-point-node-id=26%3A4258&show-prototype-sidebar=1&page-id=0%3A1>

Please take a look when you have time and share your feedback — it really helps us improve the design even more.

Looking forward to hearing from you.

R ram_zi20

Hello I am good and thank u for ur update and it does look so far and can wait till it's done

08 Apr, 20:34

R ram_zi20

And just one question u know when I go on booking and the I go on confirmed trips I can't see the other's options like home page and chat thing but idk if it's just bc it's not done or what

08 Apr, 20:36

Me

I have shared this with my team.

08 Apr, 20:57

I will get back to you soon with an update.

R ram_zi20

Thank u

08 Apr, 21:30

Me

Welcome.

08 Apr, 21:30

Me

Hello Ramzi,

08 Apr, 21:50

Thank you so much for your kind feedback — I'm really glad to hear that you liked the design so far.

Regarding your question, I will carefully check this tomorrow and give you a proper update.

The Buyer side design is already completed, so it might be a prototype-related issue that's causing

The buyer side design is already completed, so it might take a prototype related issue and a session you not to see those options properly.

No worries, I'll review everything and clarify it for you tomorrow.

Thanks again for your patience and support.

R ram_zi20

Okay thank u and have good rest of the day

08 Apr, 23:09

Me

You are welcome.

08 Apr, 23:12

Me

Hello Ramzi,

09 Apr, 16:50

Just to clarify your question — after a booking is made, the trip chat will not be available until the seller accepts the reservation.

Once your booking is accepted, if you go to the Bookings section and open the Accepted tab, you will then be able to see and access the chat/message option.

Also, after confirming any booking, there is a “Back to Home” button on that screen — by clicking it, you can easily return to the home page.

And I have some great news!

The full App design for both Buyer and Seller parts is now completed!

We've now started working on the Admin Dashboard.

In the meantime, I'd really appreciate it if you could go through the complete app design and share your feedback.

Once we have your confirmation, we'll prepare to move to the next phase.

Looking forward to your thoughts.

R ram_zi20

No it's good as it is but this idk if it's just now or will be later so if I am looking at my accepted booking I can't go to the home page will after I come back to the pending booking bc the things under they deseper

09 Apr, 17:17

R ram_zi20

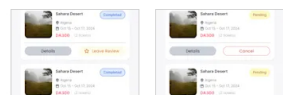

I will show u pictures

09 Apr, 17:18

R ram_zi20

09 Apr, 17:18

R ram_zi20

That's good news to hear and I am happy with the buyer side but for the seller side I can't see it

09 Apr, 17:18

R ram_zi20

And just question after the design is complete do we do meeting and when we do can we just add my partner in the meeting and how long do u think will take for the design to finish completely

09 Apr, 17:21

Me

Okay, no worries, I will let you know.

09 Apr, 17:26

Me

Hello Ramzi,

09 Apr, 17:31

No worries at all — the parts that you're finding a bit confusing or difficult to navigate, we will go through everything together in detail during our meeting tomorrow.

We'll explain each section step by step so everything becomes fully clear for you.

Looking forward to our meeting.

R ram_zi20

What time will be the meeting?

09 Apr, 17:44

R ram_zi20

Just so I know and for my partner aswell

09 Apr, 17:44

R ram_zi20

And would u be able to add him in the meeting?

09 Apr, 17:44

Me

Please let me know what time works best for you.

09 Apr, 17:52

Me

Hello Ramzi,

09 Apr, 18:01

Regarding the meeting, we are available from 9 AM to 5 PM (GMT+6).

You can join at any time within this window whenever it's convenient for you and your partner, and we will be ready to meet.

Also, to make things easier for you, I've already prepared two videos explaining how the app works step by step :

Video 1 : <https://www.loom.com/share/b312e8bd05864171b1278a8b8e8212b2>

Video 2 : <https://www.loom.com/share/f457c74de06041839af4161921da43b4>

🔗 Figma Prototype Link : <https://www.figma.com/proto/9ZjBnKBL2BwESmULagLM9l/Trip---Event-Booking-Application?node-id=33-4840&p=f&viewport=2755%2C1455%2C0.17&t=qGaCl7OcGqokT6Ce-1&scaling=scale-down&content-scaling=fixed&starting-point-node-id=26%3A4258&show-proto-sidebar=1&page-id=0%3A1>

You can go through these before the meeting, and then during the meeting, we will walk you through everything in detail and clarify any questions you have.

Looking forward to your confirmation

- R

ram_zi20

Okay and will u be available tomorrow? As it's Friday

09 Apr, 19:1

▼
- Me

Okay, noted.

09 Apr, 19:24
- R

ram_zi20

Good morning u know for the meeting I will have to see with my partner when he's available and for the design we're happy with it the both of us and it looks good but we just got few details like in the chats when they text can u show them profile small with the text and the name of the person to make it easy to know who's texting and if h can make it able to reply to certain message and for the phone number when u log in can u do they select the country of ur phone number then u put your phone number and for the seller side I don't know if u did put it on or no for the community centre for the sellers and me to chat in it and for the seller can I wanted him to be able to book from other trips using his profile and I have one more thing will explain it to u better on the meeting

10 Apr, 11:38
- R

ram_zi20

And would u be free today before 5

10 Apr, 11:38

▼
- R

ram_zi20

Around 16:00 your time

10 Apr, 11:39
- Me

Kindly allow me some time.

10 Apr, 11:40
- Let me talk to my teammate.
- Then I'll let you know.
- R

ram_zi20

Ok

10 Apr, 12:06
- Me

Thank you.

10 Apr, 12:18
- Me

Thanks for your message.

11 Apr, 8:1

▼
- Yes, we can definitely improve the chat system based on your suggestions, including showing profile images, names, and adding a reply feature to specific messages.

We will also add the country code selection for phone numbers during login. Regarding the seller access, yes — the seller will be able to use the same credentials to access the buyer profile and book trips as needed.

About the meeting today, our designer is currently on holiday. Would it be possible to schedule the meeting for tomorrow at the same time? We can go through all the details together then.

Looking forward to your confirmation.
- R

ram_zi20
