Hi app_cake!

I am working on creating my first ever mobile game and would like a quote from your company on helping me bring this to life. I have been working with a local developer near me to create a series of game developer documents for the project which I can send over if that helps.

Hello Wizkid

I truly appreciate you considering me for your app development project.

Yes, I can perfectly build both iOS and Android apps.

To ensure I capture all your requirements, could you provide more details on the features and functionality you'd like?

Moreover, we can join a Fiverr Zoom call to discuss your ideas more thoroughly.

I'm excited to learn more about your project and how I can assist in bringing your vision to life.

Looking forward to hearing from you.

Best regards,
Rakibul.

Hello Wizkid,

Thank you for giving me the flexible time to review your requirements and prepare a detailed quotation for you.

I've prepared a detailed quotation for your project, which you can access through the link below.

Quote link:

<https://docs.google.com/document/d/1yUvv1gH2chVUFAXlpWqWd5y44zx2BBvAHXVns0vPhBg/edit?usp=sharing>

Note: We use milestone-based payments, so you pay as each stage is completed, not upfront.

What you'll get:

- 120 Days of Complimentary Post-Launch Support
- 24/7 Availability for Assistance
- Regular Development Updates
- Weekly Check-in Meetings

My dedicated team, including UI/UX Designers, front-end developers, Backend Engineers, and Quality Assurance Experts, will be engaged at every stage to guarantee a top-notch outcome.

Take your time to review the quotation, and feel free to reach out with any questions.

I'm here to ensure that the project exceeds your expectations

Thanks again, and I look forward to hearing from you.

Best regards,
Rakibul

Hello Kash,

I hope you're doing well.

I just wanted to follow up regarding the proposal I sent over for the first milestone of your project.

The UI design for the application and admin panel is ready to begin, and I'm excited to get started.

Once the offer is accepted, we can dive right into the design process and ensure we stay on track with the timeline.

Please let me know if you have any questions or if there's anything else you'd like to adjust.

Looking forward to your confirmation so we can proceed.

Best regards,

Hi appcake,

I now have the funds, however, I would like to ask a few further questions before making payment.

This week a game development company in China also reached out to say they would be interested in making the game.

Based on their analysis, it would take 10-22months to build and would cost at least 30,000 USD due to all of the features.

In this case, I'm a little worried that your quote states only four months at a much cheaper price. Why is the quote and timeline so low?

21 Nov 2025, 5:08

Me
Thanks for your clarification. To confirm, the first quotation represents the MVP. I understand that in order to provide a solid proposal, we need a comprehensive application with a clear feature list that aligns with your business needs and vision.

To clarify one more point: If you're ready to move forward with the \$30,000 investment, the expected timeline is 10 to 22 months. I'm confident we can deliver within that timeframe. Our team is 600 strong, with over 100 game developers, including Flutter and AI specialists, among others. We have everything in place to make this happen.

If you have 5 to 10 minutes to discuss any final details, I'd be happy to make sure we're aligned before moving forward. Let me know your thoughts!

21 Nov 2025, 5:19

Me
Hi Kash,

Thank you for your feedback and for allowing us to align on the quotations. I've updated everything accordingly, and I'm confident you'll be pleased with the adjustments.

The timeline has been extended to ensure we stay on track with your vision. When you're ready to move forward, please feel free to let me know. I will be sending you the custom offer for the first milestone shortly.

For your reference, I've also included the updated document link here:

<https://docs.google.com/document/d/1yUvv1gH2chVUFAXlpWqWDSy44zx28BvAHXVas0vPhRg/edit?tab=t.0>

Good morning app cake,
I am messaging this morning because ai would like to provide some feedback. I am recently becoming quite disappointed with your communication.
As you are aware, this is my first game project and over the months I am investing quite a lot of money into this.
Being a first time customer, of course I am a little nervous about how this project will turn out as I have no previous experience working with you or knowing the quality of your work.
Recently, I reached out for an update to understand how the project was developing. To be honest with you, I was expecting the team to plan in updates at key times, for example after a month or six weeks to keep me updated.
Regardless, you guys asked for a meeting. I woke up early to cater to your working hours and the time difference. No one has sent me a meeting link, no one has informed me of what the meeting is about and no one has told me if it is cancelled. No meeting has occurred.

Over the past few weeks, our team has been actively working on asset creation, and we would love to share this work with you.

We hope you'll have a chance to review it and share your feedback when convenient.

We can join the meeting tomorrow at the same time. Would 5 AM GMT+6 (on 23rd February 2026) work for you? I believe this time would be better for you and me. W	wizkid_87 Good morning Rakibul, Thank you for the message. I will be brief as you can see my issues above. I would like to bring your attention to this, because currently, I am quite happy with the work of the tech team who are working on my project. However, whoever is responsible for organizing meetings and communication via this app is currently ruining the business relationship between myself and your company due to sheer incompetence. On several occasions now they have arranged meetings without notifying your team, arranged meetings without informing me and arranged meetings on days where the team is on holiday. With the time difference, this has been quite inconvenient for me. As you will be aware by checking	22 Feb, 8:17	

With the time difference, this has been quite inconvenient for me. As you will be aware by checking the project details, the first milestone of my project ends in 4 days. Currently, I am quite unhappy with the professionalism I am seeing via communication and therefore, I am researching other companies that can continue the work on my project.

However, I would be willing to continue working with your company in the long term providing whoever is in charge of communication is removed from my project and the tech team communicates with me directly. This can be via this app or via my personal email to book meetings. Finally, I wish to make something very clear. If this occurs again (it has already occurred on 3 occasions), I will be withdrawing all business with App_Cake indefinitely.

Regards
Kash

Hi Kash,

22 Feb, 8:28

I sincerely apologize for any miscommunication. After reviewing your latest appraisal, I completely agree with it. I will be sharing a document with you shortly for your review. I believe with this, we can ensure better communication going forward. Once again, I truly apologize for any confusion caused.

<https://docs.google.com/document/d/14VZNdrksSuC1prcWgUZFb0HhwWickVT0BS2OV5vDe0U/edit?tab=t.0>

Also, I'm pleased to inform you that the first milestone has been completed.

During this meeting, we will present the final design for your approval.

Best,
Rakibul

Hi Rakibul,

Do any of your team deal with branding?

I am currently setting up the business that will own the game we were making. Later in the project I want to create a website for the game and was wondering if you had anyone who could help with creating this and the business logo etc?

Kash

Me

Thanks for asking.

Yes, my team deals with branding.

If you need any support regarding this I can definitely help you.

Me

Hi Kash,

Yes, we have a dedicated branding team, and we offer a variety of services, including game development, mobile app development, website development, CMS, and SEO services. Our team consists of over 500 skilled professionals, and we're ready to assist you with your project.

If you could share your business landing page with me, I'd be happy to move forward and explore how we can collaborate.

Looking forward to hearing from you!

Best,
Rakibul

Hi Rakibul,

Please could you give me a quote for the following:

The design of a company logo: WizKid Games Ltd
This will be used on various social media pages such as X, Instagram, Discord etc.

A banner image to be used on X, Instagram, Discord, Facebook, LinkedIn and TikTok

A website for WizKid Games Ltd.

A landing page for Stormroot Saga.

Thanks,
Kash

Hello Kash,

I have discussed with my team member about the website, landing page, and logo for your project.

We can perfectly build everything for you.

For your side, I need some of the feature functionality what actually want on your website, and give you give us some reference of your logo, how it actually looks.

It will help us to build everything for you smoothly.

Looking forward to hearing from you.

Regarding your website, as we are currently in the UI/Frontend phase, our developer who is also experienced in UI/UX has been working on both design and development in parallel based on your requirements.

We're happy to share that the frontend is almost complete.

We would like to arrange a short meeting with you to demonstrate the frontend of the website. If any changes or adjustments are needed, we'll be happy to make the necessary adjustments.

Please let us know a convenient time for you. We are available anytime between 9 AM and 4 PM (GMT+6), except Friday.

Thank you, and we look forward to your response.

Best regards,
Rakibul and team

Hello Kash,

Good Morning,

Hope you are doing well.

I saw your message that you want to create a promotional video.

Yes, we can make a promotional video for your application.
